

Hands-On Training with the ecobee4 Smart Thermostat – June 14th

ecobee is more than just a smart thermostat

RSVP today for our next free ecobee training class; this session will be your first opportunity to work with ecobee's brand new ecobee4 smart thermostat.

We will also be covering the ecobee3 and ecobee3 lite smart thermostats. Get comfortable with ecobee's entire line!

We'll be going over key selling points, installation processes, and mobile control for each of these thermostats to ensure that you're equipped to sell, sell, sell!

When:

Wednesday, June 14th, 2017 at 2pm

Where:

Able Distributors - McHenry | 4506 Hi-Point Road, McHenry, IL 60050

What:

Free hands-on training with ecobee's latest and greatest smart thermostats: the ecobee3 lite and ecobee4!

Bonuses:

This training counts toward NATE certification—it provides a 2-hour credit.

Participants in this training will receive a **free** ecobee3 lite Pro thermostat.*

*Thermostat must be installed, activated, and registered through ecobee's online portal within two

weeks.
