

Regarding Pricing

To All Able Distributors Customers,

As most of you know by now, the United States has made the decision to impose tariffs on imports of steel and aluminum. Unfortunately, our industry is greatly dependent on these products and we are now beginning to see the effects of this financial decision in our market. Able Distributors is committed to keeping prices as low as possible while the government works through these issues. In the meantime, all sales people at Able Distributors are here to work with you regarding any concerns you have in around pricing and/or ongoing projects. Thank you for your continued support in allowing Able Distributors to be your HVAC wholesaler of choice and we will make sure to keep you informed of any changes as new information becomes available.

Sincerely,
Michael Bleier
Able Distributors
