

# The Rinnai Tour is Coming to Able Next Week!

## Catch the Try Rinnai® Tour

Next week, the Rinnai Tour is coming to Able and you'll have two opportunities to participate! Not sure why you should be excited? Just keep reading for all the details!

### The Rinnai Tour

Rinnai sells amazing products. Anyone who has installed one of their tankless water heaters can tell you that, but there are a lot of contractors who haven't taken the plunge with a Rinnai unit yet. So Rinnai put together a traveling roadshow featuring their best products, exclusive benefits, and free rebates.

The star of The Rinnai Tour is the Rinnai sprinter van. If you've ever seen our Napoleon-mobile or NTI's hydronic trailer, you'll be familiar with the concept. Rinnai outfitted a van with a Demand Duo, the best commercial water heater on the planet, and their new SENSEI, which is a Wi-Fi-enabled tankless water heater which boasts the easiest installation process in the market.

The van lets you get up close and personal with these game-changing new products, but that's not all; Rinnai also has hands-on virtual reality installation demos. They'll also be providing free refreshments, access to exclusive sweepstakes and giveaways, and rebates for new Rinnai products.
