

Upcoming Training Sessions from Peerless and Honeywell

Honeywell

We've got a lot of exciting events coming up here at Able! As always, you can get all of the details and reserve your spot over at <http://abledistributors.com/events/>

Honeywell Training

We will be having a Honeywell training session at each of our branches in the coming weeks. These classes will be led by Honeywell trainer Frank Crigler and they will cover a wide variety of products.

Topics Covered

1. Hands-on Universal Combustion Training

- Learn how to wire Honeywell controls
- Practice on live displays so you're ready for the real thing
- In-depth troubleshooting advice
- Covers gas valves, intermittent ignition, and universal pilot assemblies

2. Honeywell Zoning

- Full overview of the Honeywell zoning line
- Best practices for installing Honeywell zoning products
- How to size for different applications

3. The RedLINK Platform

- Full overview of the RedLINK product line
- Discussion of the features and benefits of RedLINK and how it helps both contractors and

homeowners

4. Honeywell Steam Humidification

- HM750 overview and discussion of features
- How to size and install Honeywell steam humidifiers
- Discussion of common maintenance and troubleshooting practices for Honeywell steam humidifiers

When & Where

Dinner will be provided at all events.
