

NTI Training Classes are Coming to Able in December!

Able Distributors is pleased to offer three opportunities to learn about NTI high-efficiency boilers. These classes will cover the top-of-the-line Trinity Fire Tube (Tft) models, Trinity Lx floor-mounted models, and Trinity Tx standard and combi models.

WHEN AND WHERE

[Download Event Flyer](#)

There will be three classes: one at our Evanston Branch, one at our McHenry Branch, and one at the Chicago Able location.

Able Distributors - Evanston on **Tuesday, December 6th** | 5:00pm until 7:00pm

Able Distributors - McHenry on **Wednesday, December 7th** | 9:00am until 11:00am

Able Distributors - Chicago on **Friday, December 9th** | 11:00am until 1:00pm

You can register for any of these sessions by heading over to our events page. If you're visiting the events page during November, be sure to hit the arrow pointing right to navigate to December .

MEET THE TEACHER

Don't miss out on an opportunity to learn from John McArthur! John is a training manager for NTI Inc. covering the western United States and Canada. John also provides technical and design support to distributors and contractors. Prior to coming to NTI, John worked in both the wholesale and contracting markets. As a heating department manager for a plumbing and heating firm in Colorado, John put his 20+ years of field experience to use training employees and fellow contractors in the rapidly growing field of hydronic heating.

THE AGENDA

10 minutes - Introduction of John McArthur and NTI

15 minutes - Product Introduction

30 minutes - "De-techifying" modern condensing boilers. (They really are much simpler than most technicians believe)

10 minutes - Break

40 minutes - Focus on product application and installation best practices; (piping, importance of system water treatment, venting, etc)

20 minutes - Discussion of control programming and features (covering both the Sola and the Argus platforms)
